

## CELTA Course report

Terra teaches with a strong awareness of the needs and interests of the group, and establishes consistently good rapport with her students. She plans well-staged lessons and reflects on the learning process, suggesting improvements for future plans. Her written work was of a good standard and she contributed regularly throughout the methodology component of the course.

She has a professional manner in class and also when working with colleagues and tutors. Terra has made pleasing progress throughout the course and with further guidance using the techniques she has learned she will be an effective teacher of English as a Foreign Language. She would fit well into any staff room and was a pleasure to have on the course.

### Strengths:

- Thorough plans including accurate language analysis
- Warm and engaging rapport
- Clear visual aids
- Methodical language clarification
- Active monitoring
- Effective fluency work

### Areas to work on:

- Consistently matching materials to lower level learners
- Consistent TTT/language grading
- Consistently clear task set up
